

Noto Sans Mono CJK KR (NotoSansMonoCJKkr-Regular.otf from Noto-hinted)

This font covers languages using the latin-1 alphabets (with occasional missing digraphs or accents which are not in latin-1), Russian, all the CJK languages (Cantonese, Japanese, Korean, Simplified and Traditional Chinese), and Vietnamese (although attempting to show some of the combining diacriticals on spaces in front of the first precomposed letter has produced a no-glyph sign on top of that first letter). For variations of the latin, cyrillic, and greek alphabets I attempt to show the whole alphabet, followed by Article 1 of the UDHR (it is traditional!). For the other scripts and languages I merely display the digits (if not common 0..9) and Article 1.
